## The President's Pen

When Ira Gwinn was interviewed by Professor Van Horne for a position in the mathematics department of this college he was told, "Don't accept this position unless you plan to come and stay—to bury your bones on this hill."

Ira came and stayed; forty years he has stayed. He has been here through approximately two-thirds of the life of this college as an instructor in mathematics and physics, as Registrar, and as an administrative assistant to the President. Many years of useful service are ahead.

Ira married one of Morningside's lovely young instructors, and their children, Thomas and Jean, are both outstanding students now attending Morningside. They built their home and have lived their lives on Peters Avenue, in the midst of campus life and activities. Few people have ever so completely given their lives to an institution.

Ira has been faithful and prominent in his local church. He has been a leader in the Boy Scout movement for many years. The Civil Defense organization leans heavily upon him. He and his wife have been generous supporters of the cultural life of this city.

When the Committee on Degrees of the Board of Trustees considered last winter who would be honored this year, Ira Gwinn's name was enthusiastically adopted. None is more deserving.

Someone has said that a man's life is largely measured by the institutions or causes in which he invests himself. In this sense, Ira Gwinn's life has grown in greatness through the years, for a large part of Morningside College today bears the mark of his dedication and devotion.

## Alumna To Study In Mexico

Finally a Bean SHOWER. (Look closely and you'll see them.) Speaker Ed Haakinson was honored when beans showered on him from above at the Alumni Dinner, June 1. The rascals who were responsible added a refinement. Some of the beans were of the white navy variety and the others were red kidney beans, all adding up to Maroon & White. Look closely in the corner and see our association president, Jim Fowler '53, in the headdress befitting his office.

### SIGMA THETA RHO REUNION

The Sigma Theta Rho fraternity will hold a reunion on the campus August 21 and 22.

Any interested persons who have not been contacted may write to Ray Lindhardt, Box 186, Humboldt, Iowa, or Virgil Williams, 1377 East Roe Road, Paradise, California.

At this early date the returns look excellent.

## Honorary Degrees Bestowed to Three

Two alumni and a Methodist bishop were the recipients of honorary degrees at the commencement, June 2.

Ira J. Gwinn '22, associate professor of physics and registrar at Morningside received an honorary Doctor of Science degree. Professor Gwinn has been with the college since 1922. He obtained his master of science degree from the State University of Iowa, and has attend the University of Minnesota, Wisconsin State College, and Iowa State University since that time.

Thomas Gwinn, a son of Ira and Mrs. Gwinn, was a member of the 1963 graduating class. Jean Gwinn, a daughter, will be a junior at Morningside next fall. Mrs. Gwinn, the former Winifred Withers, was a member of the college faculty in the 30's.

Mr. Gwinn received a standing ovation from the faculty and audience when the degree was conferred. Dr. Robert W. Green '43, a former student of Professor Gwinn, presented him for the degree.

Dr. William E. Sanders, who has been a physician in Iowa for some 50 years, received an honorary Doctor of Science degree. A 1904 graduate of Morningside College, Dr. Sanders received his master of arts degree at South Dakota University and has studied in Berlin and Munich, Germany, as well as at the Johns Hopkins Medical School and Hospital in Baltimore, Maryland. While in Berlin at the Pathological Institute, Dr. Sanders studied under Rudolph Virchow, now known as the "Father of Pathology." He received his M. D. degree from St. Louis University. Dr. Sanders worked as a family physician in Alta and Des Moines, Iowa and later in Long Beach, California, during World War II. Dr. and Mrs. Sanders currently reside in Tucson, Arizona. Dr. Harold Rundell, associate professor of biology at Morningside presented Dr. Sanders with his degree.

## Ed Haakinson '25 Speaks to Alumni

Ed Haakinson '25 spoke to 415 alumni at the annual alumni dinner, June 1, in the main dining room of the Commons.

As he started to speak, he was greeted by a shower of beans. (See the cover story).

It was significant that the bean shower should happen to be reenacted at the celebration of the Class of 1913 of their 50th Anniversary. The first bean shower took place in 1913 and it is highly probable that some of those present this spring were involved as culprits 50 years ago.

Haakinson has been an Associated Press Staff Correspondent at the United States Senate since 1935, after working at the old Sioux City Tribune for 13 years.

He told of life among the senators and in Washington. He said 100 newsmen cover Washington at all times with as many photographers and other related workers, plus the same number of writers working for the government. "I was awed by all the national figures when I went to Washington as an Iowa country boy," he said, but he soon found out that politicians are friendly with newsmen. "Especially the representatives of the big wire service," he added.

## Ground Broken for Klinger-Neal Theater

Ground was broken June 1 for the Klinger-Neal theater on the campus. Excavation for the building is expected to start July 1.

In a 30 minute program on the building site, President Palmer indicated the Eugene C. Eppley auditorium and classroom building would be placed in the square block area bounded by Garretson street, Sioux Trail, Newton and Bass Field.

Bishop Ensley, Iowa Area Bishop of the Methodist church gave the

address at the ceremonies. He said, "It is a good thing that the theater is being built on the campus so that art never is separated from life, so students realize that art must express itself within the context of life as a whole."

William Klinger and George Neal, the men for whom the theater is named, David W. Stewart, past president of the college board of trustees; Ira Gwinn '22; Dr. William Sanders '04; Dr. Earl A. Roadman, former president; and President Palmer participated in the actual ground breaking.

Leon Hickman '22, president of the board of trustees; Rev. Geo. W. Dunn, '21, assistant to the president; Dr. James Wood, music faculty, and Richard Zweifel, president of the 1963-64 student body also participated in the ceremony.

Nineteen members of the Class of 1913 returned to the campus to celebrate the 50th anniversary of the graduation of their class from Morningside. With husbands and wives included, the party numbered 28.

They travelled approximately 20 000 miles to be here, round trip, literally coming from the North, South, East, and West.

There were Hazel Shumaker Hudson and her husband, H. H. Hudson '11, from Titusville, Florida; Miss Ella Campbell from Pasadena, California; Florence Montgomery Kingsbury from Houston, Texas; Silas Braley and Sara Whitehouse Braley, both class members, from Pittsburgh, Pennsylvania; Dr. Joseph H. Edge and Mrs. Edge from Nashville, Tennessee; Minnie Nelson Watson from Worland, Wyoming; Horace G. Merten from Chicago, Illinois; Catherine Elliott Sayer and Mr. Sayer from Cooperstown, North Dakota; Arthur D. Machamer and Mrs. Machamer from Stockton, Illinois; David L. Wickens and Mrs. Wickens from Avon, South Dakota; Judge George Prichard and Mrs. Prichard from Onawa, Iowa; Alelia Fish Cook and Mr. Cook from Webb, Iowa; Miss Anna Rieke of Merville, Iowa and Rev. John Ralston and Mrs. Ralston; Miss Helen Wedgwood; Miss Lorna Distad; and Ella Glasgow Peterson and Mr. Peterson, all of Sioux City.

## Baseball Ends Successful Season

The Morningside College baseball team ended the 1963 season with a 12-8 record, putting on a spurt at the end of the schedule to win six of the last seven games.

Rich Vanderloo, sophomore short-stop from Lemars, Ia., won the team batting crown with a .359 average for the 20-game schedule. Vanderloo collected 28 hits in 78 times at bat and led the club in extra-base hits with 13 — 3 doubles, 6 triples, and 4 home runs. He also led the team in runs-batted-in with 19. In the Chiefs' five conference games Vanderloo hit an even .500 to earn a spot on the all-conference team. The only other Maroon Chief regular over the .300 mark was junior left fielder Chuck Dickens, Sioux City, with a .349 average for all games and a .400 mark in conference action.

In the pitching department, junior southpaw Roger Van Bergen won exactly half of the Chiefs total of 12 wins, while losing just once. The 6-4 Granville, Ia., ace got credit for all three of the Chiefs conference victories. In the 66 innings Van Bergen worked, the lefthander gave up just 16 earned runs for a 2.18 earned-run average. He struck out 63 opposing batsmen and issued only 2 walks.

Bob Wiarda, junior righthander from Edgerton, Minn., was second in

total innings pitched. Wiarda ended the season with a 3-1 record. In 36 1/3 innings, Wiarda allowed 14 earned runs for an E. R. A. of 3.47 and had 33 strikeouts. He was hampered the latter part of the season with a stretched back muscle.

Head Coach Don Protexter has expressed optimism for next year's campaign. "We had a young ball club this year and still ended the season with a respectable 12-8 record, despite this year being considered as one for rebuilding. We lose only two seniors from the club, so we will have a fine nucleus of returning lettermen next year."

The Maroon Chiefs 3-2 record in the North Central Conference earned them third place behind State College of Iowa and North Dakota University.

Van Wyngarden '32, president of the Color-Craft Corporation of Indianapolis, Indiana, recently added \$2,000 to the endowment fund he and Mrs. Van Wyngarden (Nellie Chilton '31) have established for an annual athletic scholarship. The scholarship is known as the Van Wyngarden Athletic Scholarship, and its first recipient was Jim Swanson, a member of the Class of 1963. The value of the award in its first year was approximately one-third tuition. The plan is to add to the endowment

until income from it is sufficient to support full tuition.
